

Reading and writing numbers:

Teen and ty

Counting objects:

- Count all objects
- Count on from a known set of objects
- Take away a number of objects to find out how many are left

Counting:

Counting in 1s forwards and back from any number

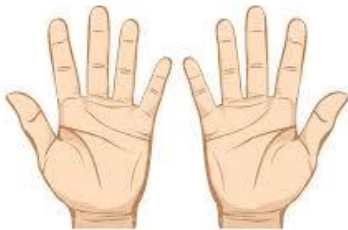

10s

2s

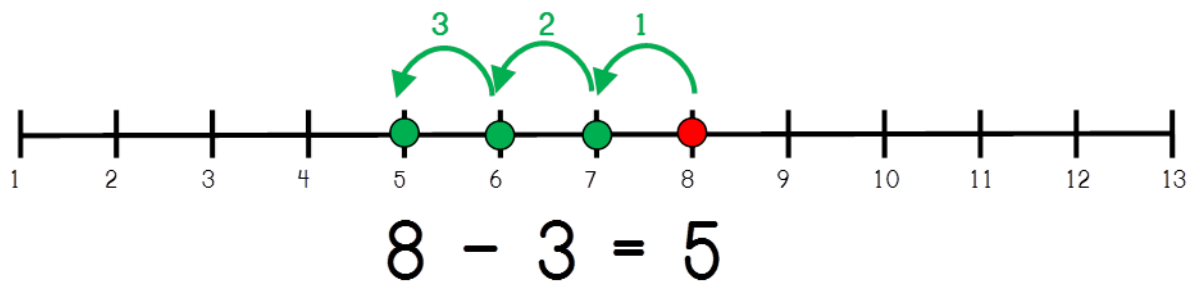

5s

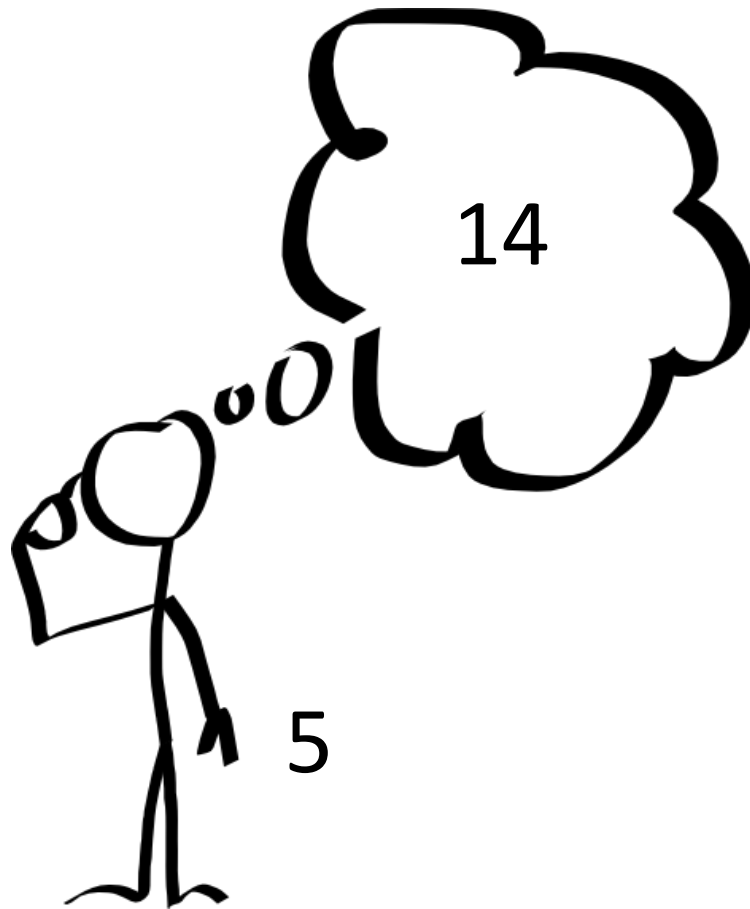

Numberlines:

Counting on and back to solve calculations:

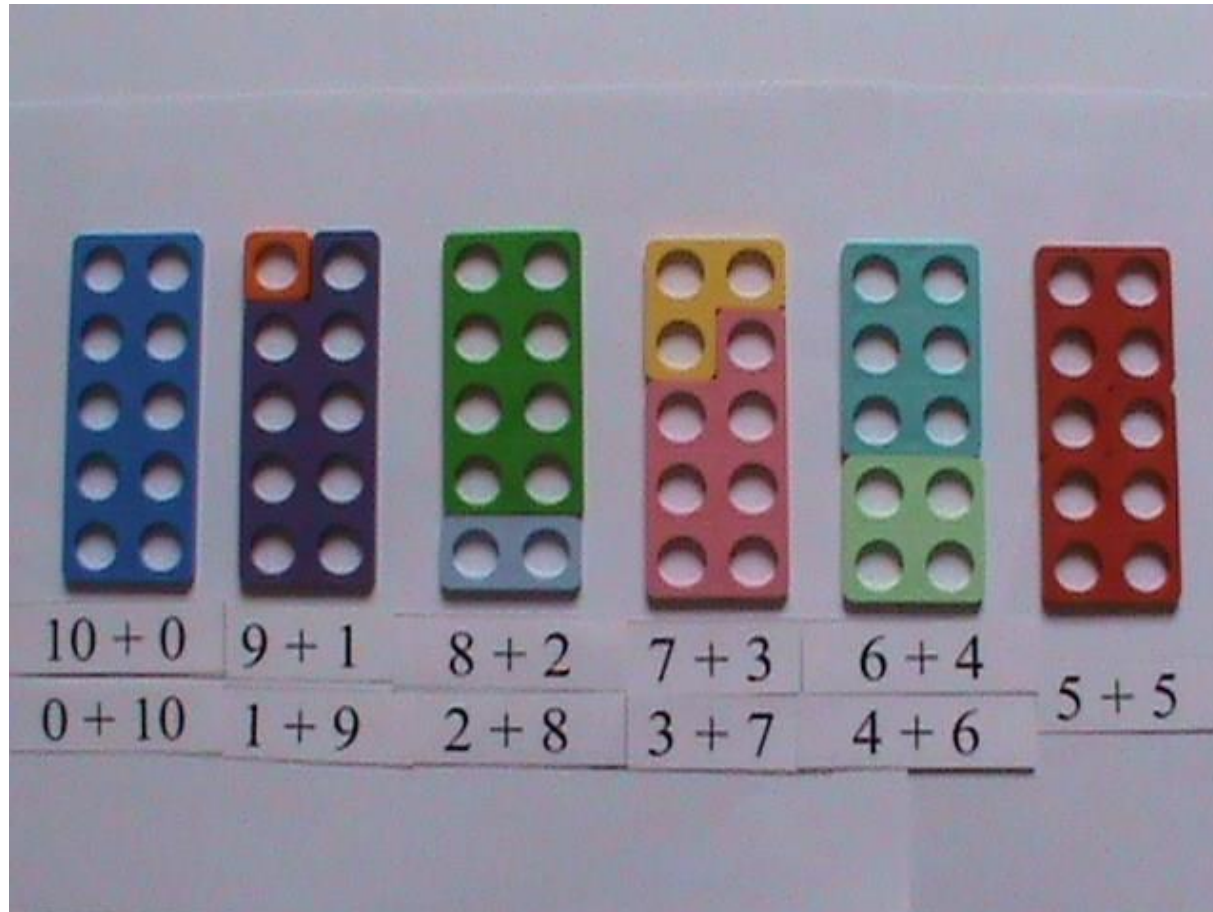

'...big number in head, little number on fingers.....

$$14 + 5 =$$

$$14 - 5 =$$

Number Facts:

The image shows six ten-frames, each representing a different addition fact. The first frame is blue and is completely filled with 10 dots. The second frame is purple with one orange dot in the top-left corner. The third frame is green with two light blue dots in the bottom-left corner. The fourth frame is pink with three yellow dots in the top-left corner. The fifth frame is teal with four light green dots in the bottom-left corner. The sixth frame is red and is completely filled with 10 dots. Below each frame are two rows of addition facts.

$10 + 0$	$9 + 1$	$8 + 2$	$7 + 3$	$6 + 4$	$5 + 5$
$0 + 10$	$1 + 9$	$2 + 8$	$3 + 7$	$4 + 6$
